Foreword

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs; 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the midmonth of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in addition, reports for December will include annual summary data.

Information presented include medical payments by form of payment, payments to medical vendors by type of service , number of recipients in whose behalf medical vendor payments were made, and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

This report was prepared by Barbara Holmes and Annie J. Mayfield under the supervision of Henrietta Duvall, National Center for Social Statistics.

Introduction

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families with Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) may also be eligible for medical care. For money payment recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct results of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, States are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

HIGHLIGHTS

Medical Assistance (Medicaid) Financed Under Title XIX of the Social Security Act - March 1974

A total of 915.2 1/ million dollars was paid out of Title XIX funds in March 1974. An estimated 8.2 2/ million persons had medical vendor payments totalling 894 1/ million dollars made in their behalf. An additional $1.5 million in vendor payments were made for screening services under the Early and Periodic Screening, Diagnosis and Treatment Program (EPSDT). There were concurrently 276,079 persons enrolled in Health Maintenance Organizations whose premiums were paid out of Title XIX funds.

Persons Served

More than half (53.3 percent) of the recipients for whom vendor payments were made were members of families with dependent children. AFDC children under 21 and other Title XIX recipients under 21 represented about 37 percent of recipients. Twenty-four percent of the recipients were eligible on the basis of age 65 and over. Seventy-four percent of the medicaid recipients were also recipients of maintenance assistance in the form of money payments. Among members of AFDC families, eighty-nine percent of the recipients were also receiving money payments.

Amounts of Payments by Groups of Persons Served

Thirty-seven percent of payments to medical vendors were for persons whose eligibility was based on age 65 and over. Thirty-three percent were on behalf of members of AFDC families. The proportion of payments (22.8 percent) on behalf of permanently and totally disabled recipients was greater than the proportion of medical payments for either adults or children in AFDC families. Among AFDC recipients, eighty-five percent of payments for medical care were made on behalf of persons also receiving money payments, however, for the aged 65 and over, seventy-two percent of medical vendor payments were on behalf of persons who were not receiving maintenance assistance. Medical vendor payments for non-money payment aged recipients accounted for more than one-fourth (26.5 percent) of the total vendor payments. It should be noted that a large amount of these payments is probably made to medical institutional facilities which provide the basic necessities (food, shelter, etc.) and thus the recipients are not authorized for money payments for such needs.

Payments by Type of Services

Sixty-nine percent of the medical vendor payments were made for inpatient services, i.e., hospitals (33.1%), skilled nursing facilities (19.8%), and intermediate care facilities (15.7%). Among other services, physicians' services and prescribed drugs represented 10.6 and 7.1 percent of total payments, respectively.

Screening Services

Forty-five States reported 143,493 children screened under the Early and Periodic Screening, Diagnosis and Treatment Program. Sixty percent of the children screened were six years of age and older. Fifty-six percent of children screened had referrable conditions uncovered and seventy-four percent of those with conditions uncovered were referred for diagnosis and/or treatment.

1/ Includes total payments of $18,509,729 for Ohio, an estimated total of $21,000 for Guam, and vendor payments of $18,102,070 for Ohio and an estimated $17,600 for Guam.

2/ Includes estimates for Colorado, Guam, Massachusetts, New Hampshire and Ohio which were extrapolated from previous reports.

TABLE 1 TOTAL AMOUNT OF MEDICAL PAYMENTS UNDER TITLE XIX OF THE SOCIAL SECURITY ACT BY FORM OF PAYMENT AND BY HEW REGION AND STATE (MARCH, 1974)

Annotations

1. The following definitions apply to symbols appearing in the detailed tables:

   --- indicates no data reported.
   *** indicates that the percent was not computed because the base was too small.

   Z indicates that the percent was less than 0.05.

2. Arizona has no title XIX program and is excluded from the tabulations.

3. Guam and Ohio did not submit reports for March 1974 and are excluded from the tabulations.

4. Colorado and New Hampshire did not report recipients and payments by maintenance assistance status and basis of eligibility of recipient and are excluded from all applicable tables.

5. Massachusetts reported recipient data for the blind only.

6. In addition to Guam, Ohio, Colorado, New Hampshire and Massachusetts; Nevada, Pennsylvania and Utah are excluded from tables 10-13 because children and adults in AFDC families were not reported separately. Connecticut, Illinois, Kansas, Maryland, Minnesota and West Virginia were able to report AFDC recipients separately but were unable to differentiate medical vendor payments between adults and children in AFDC families. These States are excluded from the total percentage computations in Table 11.

7. Idaho reported persons receiving SSI payments without a State supplement and the payments for medical services for such persons under "Money payments not authorized" in Tables 4, 6, 7, 8, 9, 12, and 13.

8. Minnesota included recipients for whom premium or per capita payments were made to SSA system and Health Maintenance Organizations and such per capita amounts in the data in Tables 2-14.

9. Due to a change in the billing cycle amounts of medical payments for North Carolina include two months' expenditures for premium payments in SSA system, family planning, home health, inpatient hospital (including mental), outpatient hospital, intermediate care facilities and skilled nursing home facilities.

Annotations--continued

10. Pennsylvania did not differentiate Other Title XIX recipients by age and is excluded from Table 14.

11. In California, there were 85,838 persons in AFDC families for whom it was unknown whether they were children or adults. These recipients and the $519,624 in medical vendor payments were distributed in the same proportions as the known amounts.

12. Data were partially estimated for Michigan, New Hampshire and New York and recipient counts were estimated for North Carolina and partially estimated for Hawaii.

Annotations specific for Table 5 (Type of Service)

13. Data were not available on medical vendor payments for family planning for Alaska and Rhode Island.

14. Family planning is included in other care for Virginia.

15. For Connecticut, other care includes other practitioners' services, clinic services, laboratory and radiological services, home health services, and family planning services. Vendor payments for general hospital include $288,171 paid to mental institutions.

16. The negative payments reported by the District of Columbia for skilled nursing home services resulted from recoveries for fiscal year 1971 on deceased and/or discharged patients.

17. For Kansas, medical vendor payments for clinic, laboratory and radiological, and family planning services were not available and are presumably included in other type of services.

18. For New York, other care includes laboratory and radiological services.

19. For New Mexico, vendor payments for general hospital services include $12,839 in retroactive adjustments.

20. For Kentucky, vendor payments for general hospital and nursing home services include reimbursable cost adjustments.

21. For Montana, total payment includes $691 in vendor payments which cannot be distributed by type of service.

Annotations specific for Screening Tables 15-20

22. States omitted from tables did not report on screening services for March 1974.

23. For California, totals do not include expenditures of $1,354,722 for 74,339 individuals who received comprehensive physical examination specifically identified as such on claim forms and paid for by Title XIX.

24. For Colorado, EPSDT screening data excludes payments for 810 recipients receiving dental screening at a cost of $70,490.

25. For Georgia, EPSDT screening data related to other problems are excluded from the tabulations.

26. Screening data were estimated by North Dakota. Data for children screened with no referrable conditions uncovered were not available.

27. Totals include expenditures of $896,475 which is not distributed by age: Idaho, $20,308; Georgia, $80,542; Kansas, $546; New York, $48,185; Texas, $745,355; and Vermont, $1,539.

28. In Indiana, the 1,148 persons screened during the month with referrable conditions uncovered were not referred for treatment because they were either currently receiving treatment for the condition or parent did not desire treatment. Similarly, the 10,257 persons not referred in Texas received immediate remedial or prophylactic care by the person performing the screening.

29. For Kansas, screening data includes 189 individuals and an expenditure of $546 who are in on-going care. There was no breakdown by age for these persons.

30. Payments for screening services were not reported by the District of Columbia, Illinois, Louisiana, Maryland, Michigan, Montana, South Dakota, Puerto Rico, and the Virgin Islands.

31. Screening data for Pennsylvania was received too late for this publication.

Quarterly Highlights
January-March 1974

A total of $2,625,618,000 was paid out of Title XIX funds during the quarter ended March 31, 1974, an increase of 3.5 percent over the previous quarter. Vendor payments totalled $2,559,264,000, an additional $22,666,714 represented premium payments to health maintenance organizations for an average monthly number of 255,055 enrollees.

About $1.8 billion or 70 percent of the total vendor payments were made to inpatient facilities: general hospitals ($736,338,000); skilled nursing facilities ($538,835,000); intermediate care facilities ($413,832,000); mental hospitals ($95,939,000). In addition $266 million and $179 million were expended for physicians' services and prescribed drugs, respectively.

The average monthly number of recipients for whom vendor payments were made during the quarter was 7,856,000, approximately 53 percent of whom were members of families with dependent children; 2,567,000 children and 1,584,000 adult members of such families. Children under age 21, both AFDC and other, constituted 36.3 percent of the average monthly recipient caseload while individuals age 65 and over comprised one-fourth of the average monthly recipient caseload. Average monthly medical vendor payments made on behalf of recipients age 65 and over amounted to $317 million (37.2 percent of the total vendor payments); vendor payments made on behalf of permanently and totally disabled recipients averaged $196 million; and vendor payments made on behalf of AFDC children averaged $131 million.

Seventy-three percent of the average monthly number of recipients were authorized to receive maintenance assistance in the form of money payments, however only 53 percent of medical payments were on behalf of money payment recipients.

A total of 436,508 children was reported as receiving screening services under the Early and Periodic Screening Diagnosis and Treatment Program (EPSDT) during the quarter. Payments for screening services totalled $4,102,293.
